

Clearcable Partner Brief

Partner Type: Provisioning

About Clearcable

Clearcable Networks is a specialized telecommunications technical consulting firm focused on the needs of Service Providers by developing of new business revenue streams, maintaining existing infrastructure and proposing new advancements in telecommunications sector globally. Founded in 2004, Clearcable provides expert help to enable appropriate technology and services for advanced communications by augmenting the existing or building the internal operations for its service provider client base.

Streamlined Operations

Clearcable and Alianza have partnered to dramatically simplify VoIP management, **accelerate time to revenue and reduce the cost of delivering cloud communications.**

Clearcable's NOMS is a comprehensive and versatile interface for enabling automated provisioning of network elements including cable modems, embedded multimedia terminal adapters, optical network units, and VoIP platforms directly from customer management and billing systems.

Alianza's cloud communications platform provides a turnkey VoIP solution that **enables broadband providers to deliver a full suite of voice and unified communication services to homes and businesses.**

Proven Integrated Solution

Service provider staff can now enter, update and retrieve customer information in a single back-office platform and seamlessly provision residential and business cloud communications.

Flow-through provisioning between the platforms is supported via APIs and reduces swivel chair management while improving operational efficiency.

Benefits

- Flow-through provisioning from back-office systems to Alianza's cloud communications platform.
- Create accounts, users, and devices on the cloud communications platform.
- Set default call features on devices.
- Supports multiple device protocols simultaneously to enable staged migrations.

Together, Alianza and Clearcable deliver an integrated, flow-through provisioning solution for broadband and phone services.

It's a partnership focused on platform integration, best practices and excellent customer service. We are both keen on removing complexity and creating the simplest operating environment for service providers."

— Ryan McCann, Clearcable
