BUSINESS LINES

Business Phone Made Easy

A small business solution designed
with your bottom line in mind.

A SMALL BUSINESS SOLUTION WITH MUSCLE

<YOUR COMPANY> Business Services offers flexible voice options that will scale and grow with your needs. Too often, small business phone solutions are packed with advanced features that are never used. They add cost and complexity when all you really need is the phone to ring.

**Business Lines is streamlined to deliver exactly what you need.
No more, no less.**

Simplified Configuration

Quickly set up
call flows.

Cloud Hunt Group

Never miss a call—
Distribute incoming
calls to a group of
phone lines.

Quick Forwarding with Short-Codes

Easily forward calls to
an assigned number.

Shared Cloud Voicemail (Optional)

Your customers can
always connect, even
when you may not
be available.

Voicemail to Email

Return calls quickly
by accessing your
voicemail messages
from your inbox.

Virtual Lines

One main number for
your customers that
can be sent to multiple
phones at your business.

Key Features

- Keep the same phone number(s)
- Unlimited nationwide calling
- Use your existing phones, no additional equipment required.
- Bundle your internet with cloud phone and save even more
- No need to have an IT expert on staff. Our local team is here to support you.
- One service provider means one bill
